1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name: Coffee and Tea Stain Remover

Recommended Use: De-staining vending machines, cups, saucers, etc.

Supplier: Midland Chemicals **ABN:** 91 622 018 986

Street Address: 18 Elliott Street

Midvale

Western Australia

Telephone Number: +61 08 9274 1992

Facsimile: +61 08 9250 1710

Emergency Telephone: 1 800 033 111 (ALL HOURS)

2. HAZARDS IDENTIFICATION

Road and Rail; Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for transport by Road and Rail; NON-DANGEROUS GOODS.

Globally Harmonised System

Hazard Classification

Hazardous according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS)

Hazard Categories

Skin Corrosion/Irritation – Category 2 Serious Eye Damage/Irritation - Category 1

Pictogram

Name of pictogram

Corrosive

Signal Word DANGER

Hazard Statements

H335 May cause respiratory irritation

Product Name: Coffee and Tea stain remover Issued: 22/01/2022

H315 Causes skin irritation

H318 Causes serious eye damage

Precautionary Statement

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P103 Read label before use.

Prevention

P261 + P271 Avoid breathing dust. Use outdoors or in well ventilated area.

P264 + P280 Wash hands thoroughly after use. Wear protective gloves.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

Response

P304 + P340 IF INHALED: remove victim to fresh air & keep at rest in a position comfortable for breathing.

P302 + P352 IF ON SKIN: Wash with plenty of soap and water.

P321 Specific treatment (see First Aid on safety data sheet).

P332 + P313 If skin irritation occurs: get medical advice/attention.

P362 Take off contaminated clothing and wash before reuse.

P305 + P351 + P338 IF IN EYES: rinse cautiously with water for several minutes. Remove contact lenses if present and if easy to do.

P310 Immediately call a POISON CENTER or doctor/physician.

Storage

P403 + P203 + P405 Store in a well-ventilated place. Keep container tightly closed. Store locked up.

Disposal

P501 Dispose of contents/container in accordance with local regulations.

Poisons Schedule: S5

IMPORTANT:

This SDS and the Hazard Classifications contained therein, only apply to the product in its concentrated form, as supplied.

When diluted to they may no longer apply.

However, good hygiene and housekeeping practices should be adhered to.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS Number	Proportion
Sodium Carbonate	497-19-8	<80%
Trisodium Phosphate	7601-54-9	10-30%
Dodecylbenzene Sulphonic Acid	27176-87-0	1 - 5%
Fatty Alcohol Alkoxylate	103818-93-5	<1%
Coconut Diethanolamine	68603-42-9	<1%
Ethanol	64-17-5	<1%
Ingredients determined not to be hazardous including water.		Up to 100%

Product Name: Coffee and Tea stain remover

Issued: 22/01/2022

4. FIRST AID MEASURES

For advice, contact a Poisons Information Centre (e.g. phone Australia 131 126; New Zealand 0800 764 766) or a doctor at once.

Ensure there is access to eye washes and safety showers.

Ingestion: Do **NOT** induce vomiting. Do NOT attempt to give anything by mouth to

an unconscious person. Rinse mouth thoroughly with water immediately.

Give water to drink. If vomiting occurs, give further water to achieve

effective dilution. Seek urgent medical advice (e.g. doctor).

Immediately irrigate with copious quantities of water for at least 20 Eye Contact:

minutes. Eyelids to be held open. Seek urgent medical advice (e.g.

ophthalmologist) if symptoms persist.

Skin Contact: Wash skin with plenty of water. Seek medical advice (e.g. doctor) if

irritation, burning or redness develops. Seek medical advice (e.g.

doctor).

Inhalation: Remove victim to fresh air away from exposure. Obtain medical

attention if symptoms occur

Medical attention and

Treat symptomatically. All treatments should be based on observed special treatment: signs and symptoms of distress of the patient. Poisons Information

Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing

Media:

Use an extinguishing media suitable for surrounding fires.

Flammability Conditions

Non-combustible; Material does not burn.

Hazardous combustion

products:

Fire or heat may produce irritating and/or toxic fumes, including

oxides of Carbon, toxic and/or corrosive gases, including

Phosphorus oxides, Sodium oxides.

Fire and explosion

Hazards

Decomposes on heating, emitting toxic fumes.

Precautions for fire fighters and special protective equipment:

Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of

exposure to products of combustion or decomposition.

6. ACCIDENTAL RELEASE MEASURES

Ensure adequate ventilation. Move people from immediate area; keep Personal precautions:

upwind. Avoid inhalation, ingestion and contact with skin and eyes.

Protective equipment: Wear appropriate protective equipment as in section 8 below to prevent

skin and eye contamination.

Stop leak if safe to do so. Minor spills do not normally need any special **Emergency** procedures:

clean-up measures. In the event of a major spill, prevent spillage from

Issued: 22/01/2022

entering drains or water courses.

Environmental Precautions:

Prevent entry into drains and waterways. Local authorities should be advised if significant spillages cannot be contained.

Methods and materials for Containment and

clean up:

Collect material (sweep or vacuum up) and place it in suitable, properly

labelled containers for recovery/recycling or disposal

7. HANDLING AND STORAGE

This material must be stored, maintained and used in accordance with the relevant regulations.

Conditions for safe

storage:

Store in a cool, dry and well-ventilated place, out of direct sunlight. Keep container tightly closed when not in use. Protect from

moisture/humidity. Avoid extreme heat. Keep away from foodstuffs

and incompatible materials (see SECTION 10).

Precautions for safe

handling:

Safety showers and eyewash facilities should be provided within the

immediate work area for emergency use. Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Avoid dust formation. Avoid breathing dust and contact with eyes, skin and clothing. Do not ingest. Use personal protective equipment as required (see SECTION 8). Avoid extreme heat and contact with incompatible materials (see SECTION 10).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure control measures:

No value assigned for this specific material by Safe Work Australia. For dusts from solid substances without specific occupational exposure

standards:

- Safe Work Australia Exposure Standard (Nuisance dusts): 8 hr TWA =

10 mg/m3, measured as inhalable dust).

No Data Available

Biological **Monitoring** No Information Available

Engineering Controls

Provide appropriate exhaust ventilation at places where dust is formed. Apply technical measures to comply with the occupational exposure limits.

Personal Protective Equipment

Eye and Face Wear appropriate eye protection to prevent eye contact. Recommended:

Chemical safety goggles.

Skin Handle with gloves. Recommended: Impervious gloves, e.g. neoprene,

> natural rubber. Wear appropriate personal protective clothing to avoid skin contact. Recommended: Long sleeved protective clothing; Overalls or dust-impervious protective suit; Apron (rubber or plastic); Safety shoes or

> > Issued: 22/01/2022

boots (rubber or plastic).

Wear respiratory protection in case of inadequate ventilation or an Respiratory

inhalation risk exists. Recommended: Dust mask/particulate respirator

(refer to AS/NZS 1715 & 1716).

Product Name: Coffee and Tea stain remover

Work Hygennic Practices

Do not eat, drink or smoke when using this product. Wash hands before

breaks and at the end of workday. Take off contaminated clothing and wash before reuse.

10. STABILITY AND REACTIVITY

Chemical stability: This product is unlikely to react under normal storage conditions.

Mixing of acid and sodium carbonate solutions could cause carbon

dioxide evolution.

Conditions to avoid: Avoid contact with heat or heat sources. Acids.

Incompatible materials: Incompatible/reactive with aluminium, fluorine, acids, sulfuric acid,

magnesium, iron, zinc, phosphorus pentoxide

Hazardous decomposition

products:

Fire/thermal decomposition may produce irritating, toxic and/or corrosive fumes, including Carbon dioxide, Phosphorus oxides,

Sodium oxides.

Hazardous reactions or

Polymerisation:

No information available.

11. TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Exposure Limits: No value assigned for this specific material by Safe Work Australia. For

dusts from solid substances without specific occupational exposure

- Safe Work Australia Exposure Standard (Nuisance dusts): 8 hr TWA = 10

mg/m3, measured as inhalable dust).

Ingestion: In case of ingestion, may cause severe irritation, nausea, abdominal pain,

vomiting, diarrhoea.

Eye contact: Causes serious eye irritation; may cause redness, lachrymation, swelling.

Skin contact: Prolonged contact may cause skin corrosion/irritation.

Inhalation: - STOT (single exposure): In case of inhalation at high concentrations, may

cause cough, nose, throat and lung irritation.

- STOT (repeated exposure): Carbonate ions are neutralised under physiological conditions to form bicarbonate ions and/or carbon dioxide, which are major products of all human metabolic activities; therefore, systemic toxicity is not expected. Risk of sore throat, nose bleeds in case of repeated or prolonged inhalation exposure.

- Aspiration toxicity: No information available.

Acute Toxicity:

Low acute toxicity following oral, dermal and inhalation exposure. In case of ingestion, may cause severe irritation, nausea, abdominal pain, vomiting, diarrhoea.

12. ECOLOGICAL INFORMATION

Ecotoxicity Aquatic toxicity:

- LC50, Freshwater fish (Lepomis macrochirus): 300 mg/L (96 h).

- EC50, Freshwater invertebrates (Ceriodaphnia cf. dubia): 200 mg/L (48 h)

[semi-static].

Persistence and degradability

Sodium carbonate is an inorganic substance. In the presence of water, it will fully dissociate to sodium and carbonate ions which will disperse in the

various media.

Sodium percarbonate dissociates in water into hydrogen peroxide and

sodium carbonate.

Sodium Metasilicate: No information available

Dodecylbenzene Sulphonic Acid: partially biodegradable. Fatty Alcohol Alkoxylate: No information available on

persistence/degradability for this product

Bioaccumulative potential

Sodium Carbonate does not bioaccumulate. The substance dissociates fully

on introduction to water. Log Po/w is not applicable for an

inorganic compound which dissociates.

Sodium percarbonate: Both sodium carbonate and hydrogen peroxide are

inorganic chemicals which do not bioaccumulate. Sodium Metasilicate: No information available

Mobility Soluble in water.

13. DISPOSAL CONSIDERATIONS

Disposal methods: Dispose of in accordance with all local, state and federal regulations.

> All empty packaging should be disposed of in accordance with Local, State, and Federal Regulations or recycled/reconditioned at an approved facility.

Or refilled at Big Bubble in Midvale.

This material safety data sheet has been prepared by Midland Chemicals

This MSDS summarises to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. No liability is accepted whether direct or indirect from its application since the conditions of final use are outside Midland Chemicals control. The end user is obliged to conform to relevant government regulations and/or patent laws applicable in their respective States of Countries.
