flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. Seek immediate medical attention.

Skin Contact: IF ON SKIN (or hair): Remove all contaminated clothing and wash affected area thoroughly with water. Wash contaminated clothing before reuse or discard. If irritation occurs, seek medical attention.

Inhalation: IF INHALED: Remove affected person from contaminated area. Keep at rest until recovered. If symptoms develop and/or persist, seek medical attention.

Medical attention and special treatment: Treat symptomatically.

5. FIRE FIGHTING MEASURES

General If safe to do so, move undamaged containers from fire area. Cool containers until well after fire is out. Dike fire-control water for later disposal.

Flammability Conditions May burn but does not ignite readily.

Suitable Extinguishing Media: Carbon dioxide, dry chemical, foam, or water spray for extinction. Do not scatter spilled material with high-pressure water streams.

Hazardous combustion products: Under fire conditions, this product may emit toxic and/or corrosive fumes, smoke, and gases including oxides of Carbon, Sodium, Nitrogen, and Sulphur.

Precautions for fire fighters and special protective equipment: Firefighters should wear Self-Contained Breathing Apparatus (SCBA) operated in a positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Evacuate all unprotected personnel. Stay upwind. Water spray may be used to cool down heat-exposed containers. Fight fire from safe location. This product should be prevented from entering drains and watercourses.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions:	Ensure adequate ventilation. Eliminate all sources of ignition. Do not touch or walk through spilled material. Avoid breathing mists and contact with eyes, skin, and clothing.
Protective equipment:	Wear personal protective equipment as required (see SECTION 8).
Emergency procedures:	Stop leak if safe to do so. Increase ventilation. Evacuate all unprotected personnel.
Environmental Precautions:	Prevent entry into drains and waterways. If contamination of sewers or waterways occurs, inform the local water and waste management authorities in accordance with local regulations.
Methods and materials for Containment and clean up:	If possible, contain the spill. Place inert absorbent, non-combustible material onto spillage. Use clean non-sparking tools to collect the material and place into suitable labelled containers for subsequent recycling or disposal. Dispose of waste according to the applicable local and national regulations (see SECTION 13).

7. HANDLING AND STORAGE

This material must be stored, maintained and used in accordance with the relevant regulations.

Conditions for safe storage:	Keep in the original container. Store in a cool, dry, well-ventilated area away from sources of ignition, foodstuffs, clothing, and incompatible materials (see SECTION 10). Keep containers closed when not in use, securely sealed and protected against physical damage. Inspect regularly for deficiencies such as damage or leaks. Ensure that storage conditions comply with applicable local and national regulations.
Precautions for safe handling:	Safety showers and eyewash facilities should be provided within the immediate work area for emergency use. Avoid inhalation of vapours and mists, and skin or eye contact. Use only in a well-ventilated area. Keep containers sealed when not in use. Prevent the build-up of mists or vapours in the work atmosphere. Do not use near ignition sources. Do not pressurise, cut, heat, or weld containers as they may contain hazardous residues. Maintain high standards of personal hygiene. Use personal protective equipment as required (see SECTION 8).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure control measures:	Safe Work Australia – TWA (Diethanolamine) = 3 PPM Safe Work Australia – TWA (Diethanolamine) = 13 mg / m ³
Biological Monitoring	No information available.
Engineering Controls	This substance should be used with a local exhaust ventilation system, drawing vapours away from workers' breathing zone.

SAFETY DATA SHEET

Personal Protective Equipment
