

## 1. Identification

**Product Identifier:** Soap on Tap Lavender Germicidal

**Other means of identification:** Big Bubble Soap on Tap Lavender Germicidal.

**Recommended use of the chemical and restrictions on use:** Hand soap. No information for uses advised against.

**Details of manufacturer or importer:**

**Supplier:** Big Bubble  
**ABN No:** 51 290 656 636  
**Street Address:** 18 Elliott Street,  
Midvale, WA, 6056,  
Australia.  
**Telephone:** +61 8 9274 1992  
**Web Address:** [www.bigbubble.com.au](http://www.bigbubble.com.au)

**Emergency telephone number:** 000 (Available 24 hours)

## 2. Hazards Identification

**Classification of the substance or mixture:** Not classified as hazardous according to the criteria of Regulation (EC) No. 1272/2008 (CLP) the Globally Harmonised System of Classification, Labelling and Packaging and Safe Work Australia.

**Poison Schedule:** Not a scheduled Poison.

## 3. Composition/Information on Ingredients

Chemical Identity	CAS No.	EC No.	Concentration of Ingredients (% w/w)
Non-Hazardous	-	-	100%

*Classification in accordance to Regulation (EC) No. 1272/2008 (CLP).*

## 4. First Aid Measures

**Description of necessary first aid measures:** For advice, contact a Poisons Information Centre (eg. Phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.

**Ingestion:** If swallowed, rinse mouth with water. Give a glass of water. If vomiting occurs, give further water. Contact a Poisons information Centre or doctor for advice.

**Skin Contact:** If unintentional skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If irritation occurs seek medical advice.

**Inhalation:** If inhaled, remove from contaminated area into fresh air. If symptoms develop seek medical advice.

# Safety Data Sheet

**Eye Contact:** In if eyes, hold eyelids apart and immediately flush the eye continuously with running water for 15 minutes. If irritation occurs, seek medical advice.

**Symptoms caused by exposure:** Refer to Section 11 for Toxicological Information.

**Medical attention and special treatment:** Treat symptomatically.

## 5. Fire Fighting Measures

**Hazchem Code:** Not applicable

**Suitable extinguishing equipment:** If material is involved in a fire use water fog (or if unavailable fine water spray), foam, dry agent (carbon dioxide, dry chemical powder).

**Specific hazards arising from the chemical:** Non-combustible liquid.

**Special protective equipment and precautions for fire fighters:** Not combustible, however following evaporation of aqueous component residual material can burn if ignited. On burning may emit toxic fumes. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to vapour or products of combustion.

## 6. Accidental Release Measures

**Personal precautions, protective equipment and emergency procedures:** Clear area of all unprotected personnel. Stop the source of the leak, if safe to do so. Clean up immediately. Avoid contact with eyes, skin and clothing. Avoid breathing vapour. Wear protective equipment to prevent skin and eye contact and the inhalation of vapour. Contain – prevent runoff into drains and waterways. Cover drains if necessary.

**Environmental precautions:** If contamination of sewers or waterways has occurred advise local emergency services

**Methods and materials for containment and clean up:**

### Large spills

Use inert absorbent material such as sand or soil to soak up spill. Collect spilled product and place in sealable containers or drums for disposal. Clean contaminated area and objects with plenty of water.

### Small spills

Use inert absorbent material such as sand or soil to soak up spill. Collect spilled product and place in a sealable container for disposal. Clean contaminated area and objects with water.

## 7. Handling and Storage

**Precautions for safe handling:** Avoid contact with skin, eyes and clothing. Avoid breathing vapour/spray mist. Use only in well ventilated areas. Wear protective clothing when mixing or using. Wash hands thoroughly after use

**Conditions for safe storage, including any incompatibilities:** Store in a dry, clean, cool, well ventilated place away from sunlight. Store in the original, labelled container and keep container tightly closed when not in use. Store container upright and away from oxidising agents. Check regularly for leakage.

## 8. Exposure Controls/Personal Protection

### Control parameters

**Exposure standards:** No workplace exposure standard has been assigned for this specific material by Safe Work Australia.

**Biological monitoring:** No biological monitoring required.

**Appropriate engineering controls:** Use only in well ventilated areas. Keep containers closed when not in use.

### Personal protective equipment:

**Manufacturing, Packaging and Transport:** Personal protective equipment should be used only when other control measures (eg. elimination, substitution, isolation and engineering controls) have been found to be impracticable or in conjunction with one or more control measures. When needed wear overalls, safety glasses/chemical goggles and impervious gloves. Available information suggests that gloves made from nitrile rubber should be suitable for intermittent contact. However, due to variations in glove construction and local conditions, the user should make a final assessment.

If inhalation risk exists, wear air purifying respirator meeting the requirements of AS/NZS 1715 AS/NZS 1716 (Australian/New Zealand Standard™ respiratory protective devices). Wash contaminated clothing and protective equipment before storing or re-using.

**Recommendations for consumer use:** Wash hands after use.

## 9. Physical and Chemical Properties

<b>Appearance/odour:</b>	Purple liquid with a lavender odour.
<b>Solubility:</b>	Soluble in water.
<b>Odour threshold</b>	Not available.
<b>pH:</b>	7 (1% solution)
<b>Specific gravity/density:</b>	1.0
<b>Melting point:</b>	Not applicable.
<b>Initial boiling point:</b>	Not available.
<b>Boiling point range:</b>	>100°C
<b>Flash point:</b>	Not applicable.
<b>Evaporation rate:</b>	Not available.
<b>Flammability:</b>	Not applicable.
<b>Flammability limits:</b>	Not applicable.
<b>Vapour pressure</b>	Not available.
<b>Rel. vap. Density, air=1:</b>	Not available.
<b>Partition co-efficient:</b>	Partitions into water.
<b>Autoignition Temp:</b>	Not applicable
<b>Decomposition Temp:</b>	Not applicable
<b>Viscosity:</b>	Not available.

Reference<sup>1</sup>

## 10. Stability and Reactivity

**Reactivity/Incompatible materials:** Reacts with oxidising agents.

**Chemical stability:** Stable under normal conditions of use.

**Conditions to avoid:** Avoid extremes of temperature and direct sunlight. Avoid contact with incompatible materials.

**Possibility of hazardous reactions:** No hazardous reactions when stored and handled within normal conditions of use.

**Hazardous decomposition products:** Oxides of carbon and nitrogen, smoke and other toxic fumes.

## 11. Toxicological Information

No adverse effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

### **Acute Toxicity**

**Ingestion:** Swallowing may result in nausea, vomiting and abdominal pain

**Skin contact:** Product is not expected to be absorbed through the skin.

**Inhalation:** Inhalation of vapour, mists or aerosols may result in respiratory irritation.

### **Corrosion/Irritation**

**Skin Contact:** Contact with skin may result in irritation. Will have a degreasing action on the skin. Repeated or prolonged skin contact may lead to irritant contact dermatitis.

**Eye contact:** Contact with eyes may result in irritation.

### **Respiratory and skin sensitisation**

This product is not expected to cause respiratory nor skin sensitisation.

### **Other toxic effects**

There is no available data for the product, that it may be a germ cell mutagen and cause heritable genetic damage.

There is no available data for the product that it may be carcinogenic and cause cancer.

There is no available data for the product, that it may be a reproductive toxicant and may impair fertility or cause irreversible effects in the offspring.

There is no available data for the product, that it causes specific organ toxicity following a single or repeated exposure.

This product is not expected to present an aspiration hazard.

## 12. Ecological Information

**Ecotoxicity:** Avoid contaminating waterways.

**Persistence and degradability:** No information available.

**Bioaccumulative potential:** No information available.

**Mobility in soil:** No information available.

**Other adverse effects:** Not dangerous to the ozone layer.

## 13. Disposal Considerations

**Disposal methods:** Refer to State Land Waste Management Authority.

## 14. Transport Information

### Road and Rail Transport

Not classified as Dangerous Goods according to the criteria of the Australian Code for the Transport of Dangerous Goods by Road & Rail.

**Environmental hazards for transport purposes:** Not a marine pollutant according to the criteria or the International Maritime Dangerous Goods Code (IMDG) for transport by sea.

**Special precautions for transport:** Not allocated.

**Additional information:** Not applicable.

### Marine Transport

Not classified as Dangerous Goods according to the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

### Air Transport

Not classified as Dangerous Goods according to the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

## 15. Regulatory Information

### Safety, health and environmental regulations:

None of the components of this product are listed in the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).

All of the constituents of this product are listed on the Australian Inventory of Chemical Substances (AICS).

This material is not listed as subject to the following international agreements:

- An ozone depleting substance according to the Montreal Protocol.
- A persistent organic pollutant according to the Stockholm Convention.
- As requiring Prior Informed Consent according to the Rotterdam Convention.
- As Dangerous Goods (Hazardous Waste) according to the Basel Convention on Hazardous Waste.
- A marine pollutant, according to the Prevention of Pollution from Ships (MARPOL).

## 16. Other Information

### Reason for Issue

Supersedes Revision: Not applicable.

Reason for Issue: First issue.

This Safety Data Sheet was prepared by SDS Writers ([www.sdswriters.com](http://www.sdswriters.com)).

The information contained in this Safety Data Sheet is intended to give general guidance on how to safely handle the product in the workplace. Since the supplier of this product cannot anticipate or control the conditions under which it may be used, each user must, prior to usage, assess and control the risks arising from the use of this product. If clarification or further information is needed, the user should contact the product supplier, listed on the first page of this document.

The supplier's responsibility for the product as sold is subject to the terms and conditions of sale, a copy of which is available on request.
